CHER RADIO 950

February 18, 1966

Mr. S. R. Morss
R. 3
Bradford, Mass.

Dear Mr. Morss:

I apologize for the delay in answering you letter of a couple of weeks ago. We were very pleased to receive your reception report as it is the first one we have received from the U. S. This letter will verify your report.

Radio CHER (pronounced CHEER) had its initial broadcast on December 21, 1965 and operates on a 24-hour basis. Our station operates at 10,000w, day and night, on 950 kcs with a directional antenna. Our transmitter is a General Electric 10kw and we have a two-tower array, located in somewhat swampy soil about 6 miles south of the city of Sydney. Our studios are in a new building constructed entirely of aluminum, porcelaine pannelling and glass.

Thank you for taking the time to write.

Cheers,

Bob McGuigan /k
